1. Claims 1, 3 and 18 are allowed. Claims 1 and 18 are independent.

2. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 18 as amended define over the closest prior art of record, Washizu (Japanese Application Publication No. 11-252322). Specifically, claims 1 and 18 have been amended to specify that the photosensor array is attached to a flexible drive member, and that the two-dimensional path of movement is defined by the flexible drive member. Examiner agrees with Applicant on that this feature is not taught by Washizu because in Washizu, the path of movement defined by the cable is single dimensional, meaning that the sensor array may move in two dimensions, but only one of those dimensions is determined by the cable.

Claim 3 depends on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
